e-Invoices Delivered

Eliminate Work...Eliminate Mistakes...Eliminate Cost.
e-now from FileBound... e-Invoices Delivered NOW!

With e-now, tomorrow's promise of e-Invoices is delivered today. e-now is a hosted solution that provides everything you need to convert all of your paper invoices to e-Invoices with the click of a mouse and pass the invoice data directly into your accounting system. e-now also provides single click access to invoices from within your accounting system, automated routing for approvals, and compatibility with SharePoint® 2010 implementations.

In the past, the cost and complexity of these types of solutions has kept them out of reach for most organizations. With e-now that all changes. The e-now SAS70 certified hosted service removes the up front capital cost and technology resources that most invoice processing solutions require.

e-now is priced at 25¢ per invoice and provides a simple way to calculate return on your investment. Finally, there is an automated invoice processing solution with the capabilities of an enterprise class solution, but priced and delivered to meet the needs of all organizations.

To learn more about e-now, to begin realizing the value that e-Invoices provide, and to sign up for a free 30 day trial, visit us at www.filebound.com/enow
